

NORDIC NETWORK FOR RESEARCH IN BIOMEDICAL LAW 3RD BIANNUAL CONFERENCE

Trends and Challenges in Nordic Health Law *Copenhagen April 14-16, 2010*

Programme

Location: University of Copenhagen, udvalgsværelse 1

14 April

- 12.00 – 13.00: Registration. Fruit and sandwiches
- 13.00 – 13.15: Professor Mette Hartlev & Assistant Professor Janne Rothmar Herrmann: Welcome and opening
- 13.15 – 13.30: Professor Elisabeth Rynning: About the Nordic Network

Theme: Nordic Health Law – characteristics and challenges

Chair:

- 13.30 – 14.30: Professor Mette Hartlev: Raison d'être of Nordic health law
- 14.30 – 15.15: Associate Professor Karl Harald Søvig: Deprivation of liberty of pregnant women to protect the foetus – Recent developments in Nordic law
- 15.15 – 15.45: Coffee break
- 16:00 - 16.45: Assistant Professor Line Bune Juhl: Genetic privacy – autonomy or solidarity?
- 16.45 -17.30: Assistant Professor Janne Rothmar Herrmann: Pandemic Influenza: Public health, distribution of scarce resources and individual rights
- 17.30 - 18.00: General discussion
- 19.00: Dinner in town

15 April

Theme: Health Law in a multicultural society

Chair:

- 9.00 – 10.00: *Keynote speaker*, Professor Dr. Henriette D.C. Roscam Abbing: Health law in a multicultural society
- 10.00 - 10.15: Coffee break
- 10.15 – 12.15: Presentation from the Nordic countries: Nordic perspectives on health law in a multicultural society - Current issues
- 12.15 – 13.00: General discussion
- 13.00 – 14.00: Lunch at “Munkekælderen” (the remaining cellar of the building which housed the University throughout the 1500 period)
- 14.00 – 15.00: Guided tour of the old university by university historian Ejvind Slottved (followed by coffee)
- 15.00 – 16.45: PhD-students session
- Søren Birkeland: Health professional disciplinary proceedings. An overview and some future research perspectives
 - Kristina Hug: Diversity of religious approaches to human embryonic stem cell research, IVF and human therapeutic or reproductive cloning
 - Amina Agovic: How morality will save the Patents
 - Juli Mansnerus: Regenerative medicine encountering law – Challenges of standardization in research and patenting of stem cell innovations
- 18.30 – 20.00: Guided tour at the Medical Museion
- 20.00: Dinner at Vespa Restaurant

16 April

Theme: European Integration

Chair:

- 9.00 – 9.45: *Keynote Speaker*, Professor Lotta Vahlne Westerhäll: The concepts of sickness and inability for work in an EU-legislative perspective
- 10.00 – 10.15: Coffee break

10.15 – 11.00:	Dr. philos Sigmund Simonsen: European integration: A case-example from biomedical research law.
11.00 – 11.30:	General discussion
11.30 – 12.00:	Future collaboration and closing of the meeting
12.00-13.00	Goodbye and snack and drinks for the road
13.00 – 15.00:	Management Board meeting

The Nordic Network for Research in Biomedical Law is funded by NordForsk. The aim of the Network is to provide an opportunity for Nordic researchers in the field biomedical law to exchange information and discuss legislative developments and interesting areas of research, thereby stimulating different forms of increased Nordic cooperation in research and doctoral studies in biomedical law. The Network was founded in 2006. The Project Leader of the network is Professor Elisabeth Rynning, University of Uppsala.
